

JOINTLY DRIVING
THE FUTURE OF ENT.

5TH CONGRESS OF EUROPEAN

ORL-HNS

BRUSSELS, JUNE 29 – JULY 3, 2019

www.ceorlhns2019.org

Time	Otology/Neurotology			Head & Neck			Rhinology			Laryngology			Pediatrics		Skull Base	Phoniatrics	Sleep Medicine	General	Basic ENT													
8:00 - 8:45	*Endoscopic ear surgery, hearing preservation in CI 	A lifetime of experience in auditory electrophysiology		Endoscopic evaluation in head neck cancer, how I do it?		TORS in oropharyngeal cancer		Managing the orbit from a rhinologist's perspective - inflammatory and neoplastic lesions		Pitfalls in newborn nasal obstruction		Non allergic rhinitis		Diagnosing and treating the strained voice		Difficult exposure in laryngoscopy - problems and solutions		Pitfalls in microlaryngeal surgery of the vocal folds		Multidisciplinary cooperation in management of pediatric sleep disorder		Imaging of the lak: skull base		Voice rest following laryngeal surgery 		E-health and wearables		Necrotising fasciitis in ENT				
8:45 - 9:00	BREAK																															
9:00 - 10:30	Ossiculoplasty: tips and tricks		New trends in mastoiditis		Recent progress of endoscopic approach to temporal bone disorders in Asia-Oceania		Recurrent and metastatic thyroid carcinoma		New strategies in immunooncology beyond checkpoint inhibition		Awareness and early detection program in head and neck cancer - European experience		Multi-approaches to anterior SB - preferences in selected cases		CSF – the challenges		TBA		Management strategy for early and moderately advanced glottic cancer - the surgeon's perspective		Tracheostomy in children		Endonasal endoscopic approach to ASB tumours		Automatic speech recognition in laryngology & phoniatrics practice		Multimodality treatment of OSA		The Gulf countries session		Orbital Cellulitis – an ENT emergency?	
10:30 - 11:00	COFFEE BREAK																															
11:00 - 11:30	Robotic and navigation assisted inner ear access		Cochlear implants - the experience of Saudi Arabia		Vestibular schwannoma: wait & scan, surgery or radiosurgery		Precision medicine in robotic surgery of head and neck		Modern reconstruction in head and neck cancer		Novel medical therapies - the deathk-nell of sinus surgery		QOL in patients with CRS and allergic rhinitis		Endoscopic endonasal approaches for sinonasal malignancies - where are we today?		Juvenile angiofibroma		World voice day		Evident structural changes of the vocal folds - is surgical treatment necessary				Dutch national guideline for the management of head and neck paraganglioma		New development in voice assessment		TORS transoral robotic surgery		Does an ENT-specialist need knowledge about microbiota?	
11:30 - 13:00	ENT training in Europe: how to promote standardization, excellence and mobility for a european learning		Acute otitis media: myth and reality		What's new in CI devices		Quality of life in head and neck cancer patients		Robotic surgery		3D in head and neck surgery		Current surgical treatment of hypopharyngeal cancer		Recent updates on allergic rhinitis		Frontal sinus		*Laryngopharyngeal reflux: does it exist? 		Treatment of bilateral vocal fold paralysis		Craniofacial anomalies in children		Thyroid disease in children and adolescents		Pituitary surgery, endoscopic surgery, invasive adenoma, complications		Phoniatric approach to disorders of children with clefts			
13:00 - 14:30	CLOSING CEREMONY																															

Time	Otolary/Neurotology				Head & Neck				Rhinology				Laryngology			Pediatrics	Sleep Medicine	Facial Plastics	Skull Base	Phoniatrics	General	Basic ENT				
8:00 - 8:45	Transmastoid repair of CSF fistula		How to avoid and resolve complications in cochlear implantation		HPV testing		Current role of robotic surgery in the management Head and Neck Cancer		Tips and tricks for making the most out of sinus imaging: 2D and 3D		Septal perforation repair: fully endonasal to options outwith the nose		Recurrent laryngeal nerve paralysis with synkinesis: current concepts		Difficult cases in Laryngology	Management of subglottic stenosis with corticosteroid injections: how I do it	Pediatric voice		Cocaine and midline lesions: from diagnosis to reconstruction	Middle fossa approach in different skull base pathologies for otorhinolaryngologists	Functional endoscopic evaluation of swallowing disorders	3D printing – are we ready for the revolution	Acute airway management in adults and children: work-up and treatment algorithm			
8:45 - 9:00	BREAK																									
9:00 - 10:30	Update in cholesteatoma management		Novel hearing therapeutics; what does it mean for the ENT surgeon		Salvage surgery in Head and Neck		Current surgical treatment of laryngeal cancer		Advances in the assessment and treatment of oral cancer		What's new in smell and taste disorders		Facial pain		Oropharyngeal dysphagia - current advice for assessment strategy and diagnostic tools		Sulcus vocalis: diagnosis and management	Adductor spasmodic dysphonia - current concepts in diagnosis and treatment	Congenital anomalies of head and neck		Open rhinoplasty: major complications to achieve optimal results	Small acoustic neuromas - pros and cons of different management strategies		Perspectives for young otorhinolaryngologists around the world	AAO-HNS -Adverse Events in Otolaryngology-Head and Neck Surgery: Are We Better at Managing Complications?	Work-up and treatment of head and neck tumors: what's your protocol?
10:30 - 11:00	COFFEE BREAK																									
11:00 - 11:30	Superior canal dehiscence: pros & cons, myths or facts?		Central vestibular syndrome	Revision stapes surgery	*Surgery vs radiotherapy in laryngeal cancer	New prognostic factors in head and neck cancer	Benign parotid tumors: surgical options	Office-based treatments - time to abandon the operating theatre?		Managing CSF leaks - how hard can it be?		The TNM classification of laryngeal cancer revisited: is it still suitable to select the adequate surgical treatment?		Pediatric head and neck surgery		Facial plastic surgery and ENT: where are we going	Sinonasal and skull base cancers: progression, challenges and future directions	Robotics/ Robo-sculpt	Management of speech disorders after oral and oropharyngeal cancer	Do we need different guidelines for antibiotic treatment in different countries?	Important landmarks in neck dissection and how to find them					
11:30 - 12:15	New indications of cochlear implantation		Auditory Processing Disorder: the forgotten hearing impairment?		Treatment of the elderly head and neck cancer patients		Timely management of head and neck cancer	Laryngeal pacing and reinnervation	Treatment of Oral Cancers - Controversy to Consensus AQA-O + ASHNO + EHNS		Revisions sinus surgery	Controversies in septal and turbinate surgery		Transgender surgery for voice	Assessment of chronic cough		Vestibular testing in children	Non CPAP treatment of OSA		Management of advanced acoustic neuroma	Treatment options in unilateral vocal fold paralysis	The European Board Exam in ORL-HNS. Status and update	Imaging of the head and neck – a step by step approach to reading CT and MR			
12:15 - 13:00	Golden Resident Quiz																									
13:00 - 14:30	LUNCH/ SPONSORED SATELLITE SYMPOSIA																									
14:30 - 15:00	An evidence-based, step-up treatment strategy for Meniere's disease		Bone anchored hearing systems: state of the art		Oropharyngeal cancer in the HPV era	Selective neck dissection in the positive neck	Management of the TMJ in head and neck surgery	Therapeutic potential of infiltrating T-cells	Voice restoration following laryngectomy	JNA - new concepts in understanding and management		Quality of life after treatment for laryngeal cancer	Neuromyectomy as a definitive treatment for AdSD		Mild hearing loss in school aged children: clinical management	Upper airway stimulation		Anterior skull base surgery - a sneak preview of the future	Is indirect phonosurgery under local anesthesia a historical approach or a new change for office procedures in the future?	The challenges of lymph node tuberculosis	The basics of stroboscopy					
15:00 - 16:00	FREE PAPERS																									
16:00 - 16:30	FREE PAPERS																									
16:30 - 17:00	COFFEE BREAK																									
17:00 - 17:45	New trends in auditory and anti-ageing research	Management of Meniere's disease and imaging	Neonatal hearing screening programmes	TBA	Electrochemotherapy for the treatment in head and neck cancer				Frontal sinus surgery conservative to radical options	Approaches to maxillary sinus - endonasal and external options	Inferior turbinectomy and allergic rhinitis: when and how?	Trans-nasal office approaches for benign and premalignant laryngeal disease	Visual neurolaryngology	Balance testing in children	Minimal-invasive procedures in snoring and mild OSA		Squamous cell carcinoma	Fascia injection for vocal cord augmentation	Virtual skills simulation	Microphonosurgery – tips, tricks and pitfalls						

Time	Otolgy/Neurotology		Head & Neck		Rhinology			Laryngology			Pediatrics		Sleep Medicine	Facial Plastics	Skull Base	Phoniatrics	General		Salivary Gland	Basic ENT
8:00 - 8:15	Update in middle ear imaging	Update on atresia and microtia management	NBI in diagnosis of head and neck cancer	Office based procedures in head and neck oncology	Intraoperative neuromonitoring in thyroid surgery	CRS - what to do when nothing seems to work - medical and surgical options	*In rhinology 4 hands are better than 2	Methods for oxygenation in airway surgery	Pediatric Thyroid	DISE	Nasal septum perforation closure with anterior ethmoidal artery flap	ABI	New method for treatment of puberphonia	How to handle complications of tonsillectomy: the bleeding tonsils	The normal gland: What you need to know	Welcome and introduction				
8:15 - 8:45																Imaging of the os petrosus – a step by step approach to reading CT				
8:45 - 9:00	BREAK										BREAK									
9:00 - 10:30	Genetic background in progressive hearing loss	Middle ear ventilation: from theory to endoscopic surgery	Epidemiology in HPV in head and neck cancer in Europe	Current management of T3 laryngeal cancer across Europe	Controversies in inverting papilloma	ARS - A graduated approach to medical and surgical management of chronic rhinosinusitis	Decision making in airway surgery - how would you treat these patients?	IAP - paresis and vocal fold insufficiency	Adenotonsillar disease	Update of implementation of contemporary diagnostic tools and treatment in OSA	Endonasal septoplasty and rhinoplasty. An update	Lessons learned from endoscopic skull base surgery	Phoniatric approach to professional voice care	Can disease registers improve outcomes?	Acute sialadenitis	Young IFOS - Challenges in pediatric otology				
10:30 - 11:00	COFFEE BREAK										COFFEE BREAK									
11:00 - 11:30	Functional neuroimaging in asymmetric hearing loss	What can we get from surgical correction of auditory canal atresia?	Open neck partial surgery of the larynx: is it still indicated?	Laryngotracheal reconstruction after the surgery of invasive thyroid cancer	Optimising outcomes in CRS	Inverted papilloma from diagnosis to management	Endoscopic imaging of the larynx - state of the art	Anterior skull base surgery in children	OSAS-Present and future	Rhinoplasty: lessons from success and failure	Skull base paraganglioma	Autoimmune diseases in connection with voice disorders	Near misses in ENT-HNS	Scanning the Egyptian Mummies	Everything you need to know about sialendoscopy in one hour & Everything you learned, applied to patients - followed by FP Session	Cholesteatoma surgery: tips, tricks and pitfalls				
11:30 - 12:15	Bone conduction implant or middle ear implant?	Lessons learned from the Moroccan cochlear implantation program	Update on Oral Cavity Cancer	Robotic vs Laser surgery in transoral surgery	Rhinosinusitis - managing the complications	Allergy and immunotherapy - challenges	Management of late toxicity after RCT for laryngeal cancer	OSAS in children	Pediatric rhinology		Anterior skull base reconstruction	Voice assessment before and after phonosurgery - what should we be measuring?	AAO-HNS - New Technologies and Novel Strategies in Otolaryngology-HNS	ALA - Management of pre-neoplastic lesions of the larynx: from diagnosis to rehabilitation		Perceptive hearing loss in children: work-up and management				
12:15 - 13:00																UEMS-ORL - Clinical pearls: referred otalgia				
13:00 - 14:30	LUNCH/ SPONSORED SATELLITE SYMPOSIA										LUNCH/ SPONSORED SATELLITE SYMPOSIA									
14:30 - 15:00	Outcome parameters of hearing results after ear surgery	Attic cholesteatoma - tips and tricks	Transoral ultrasound guided surgery	The role of microbiota in immunoncology	Allergic rhinitis - 21 st century approach to management	Is endotyping the answer in CRS treatment?	Does HPV play a role in laryngeal cancer?	External surgery for laryngeal cancer: tips, tricks and pitfalls	Vocal fold scars. Today and tomorrow	Challenges in sleep apnoea in children < 2 years	Choanal atresia	Facelift surgery: Are we reflective and modest enough about what we teach?	Pediatric skull base	Phoniatrics and genetics	Chronic sialadenitis	The analysis of a dizzy patient: how I do it				
15:00 - 15:45	FREE PAPERS										FREE PAPERS									
15:45 - 16:30																				
16:30 - 17:00	COFFEE BREAK										COFFEE BREAK									
17:00 - 17:45	Multidisciplinary management of tinnitus: what is new?	Cartilaginous Myringoplasty: tips and tricks	Neuromonitoring in head and neck surgery	Da Vinci vs flex robotic	Sinus surgery in CRS - options for minimal and extensive surgery	Systemic diseases and the nose	Mastering Asian Rhinoplasty	MRI and olfactory disorders	Early glottic cancer - tips and tricks in TLM	TBA.	AOM today	Functional disorders of children with clefts	Treatment of neurofibromatosis type 2	Laryngeal EMG & neurolaryngological diagnosis	Surgical complications - followed by FP Session	Facial plastics				

Time	Otolaryngology/Neurotology		Head & Neck		Rhinology			Laryngology			Pediatrics		Sleep Medicine	Facial Plastics	Skull Base	Phoniatrics	General		Salivary Gland	Basic ENT
8:00 - 8:15	Update in middle ear imaging	Update on atresia and microtia management	NBI in diagnosis of head and neck cancer	Office based procedures in head and neck oncology	Intraoperative neuromonitoring in thyroid surgery	CRS - what to do when nothing seems to work - medical and surgical options	*In rhinology 4 hands are better than 2		Methods for oxygenation in airway surgery	Pediatric Thyroid	DISE	Nasal septum perforation closure with anterior ethmoidal artery flap	ABI	New method for treatment of puberphonia	How to handle complications of tonsillectomy: the bleeding tonsils	The normal gland: What you need to know	Welcome and introduction			
8:15 - 8:45																	Imaging of the os petrosus – a step by step approach to reading CT			
8:45 - 9:00	BREAK										BREAK									
9:00 - 10:30	Genetic background in progressive hearing loss	Middle ear ventilation: from theory to endoscopic surgery	Epidemiology in HPV in head and neck cancer in Europe	Current management of T3 laryngeal cancer across Europe	Controversies in inverting papilloma	ARS - A graduated approach to medical and surgical management of chronic rhinosinusitis	Decision making in airway surgery - how would you treat these patients?	IAP - paresis and vocal fold insufficiency	Adenotonsillar disease	Update of implementation of contemporary diagnostic tools and treatment in OSA	Endonasal septoplasty and rhinoplasty. An update	Lessons learned from endoscopic skull base surgery	Phoniatric approach to professional voice care	Can disease registers improve outcomes?	Acute sialadenitis	Young IFOS - Challenges in pediatric otology				
10:30 - 11:00	COFFEE BREAK										COFFEE BREAK									
11:00 - 11:30	Functional neuroimaging in asymmetric hearing loss	What can we get from surgical correction of auditory canal atresia?	Open neck partial surgery of the larynx: is it still indicated?	Laryngotracheal reconstruction after the surgery of invasive thyroid cancer	Optimising outcomes in CRS	Inverted papilloma from diagnosis to management	Endoscopic imaging of the larynx - state of the art		Anterior skull base surgery in children	OSAS-Present and future	Rhinoplasty: lessons from success and failure	Skull base paraganglioma	Autoimmune diseases in connection with voice disorders	Near misses in ENT-HNS	Scanning the Egyptian Mummies	Everything you need to know about sialendoscopy in one hour & Everything you learned, applied to patients - followed by FP Session	Cholesteatoma surgery: tips, tricks and pitfalls			
11:30 - 12:15	Bone conduction implant or middle ear implant?	Lessons learned from the Moroccan cochlear implantation program	Update on Oral Cavity Cancer	Robotic vs Laser surgery in transoral surgery	Rhinosinusitis - managing the complications	Allergy and immunotherapy - challenges	Management of late toxicity after RCT for laryngeal cancer		OSAS in children	Pediatric rhinology		Anterior skull base reconstruction	Voice assessment before and after phonosurgery - what should we be measuring?	AAO-HNS - New Technologies and Novel Strategies in Otolaryngology-HNS	ALA - Management of pre-neoplastic lesions of the larynx: from diagnosis to rehabilitation		Perceptive hearing loss in children: work-up and management			
12:15 - 13:00																		UEMS-ORL - Clinical pearls: referred otalgia		
13:00 - 14:30	LUNCH/ SPONSORED SATELLITE SYMPOSIA										LUNCH/ SPONSORED SATELLITE SYMPOSIA									
14:30 - 15:00	Outcome parameters of hearing results after ear surgery	Attic cholesteatoma - tips and tricks	Transoral ultrasound guided surgery	The role of microbiota in immunoncology	Allergic rhinitis - 21 st century approach to management	Is endotyping the answer in CRS treatment? 16:30 - 17:00	COFFEE BREAK										COFFEE BREAK									
17:00 - 17:45	Multidisciplinary management of tinnitus: what is new?	Cartilaginous Myringoplasty: tips and tricks	Neuromonitoring in head and neck surgery	Da Vinci vs flex robotic	Sinus surgery in CRS - options for minimal and extensive surgery	Systemic diseases and the nose	Mastering Asian Rhinoplasty	MRI and olfactory disorders	Early glottic cancer - tips and tricks in TLM	TBA.	AOM today	Functional disorders of children with clefts		Treatment of neurofibromatosis type 2	Laryngeal EMG & neurolaryngological diagnosis		Surgical complications - followed by FP Session	Facial plastics		

MONDAY, JULY 1, 2019																				ROUND TABLE		INSTRUCTIONAL COURSE		KEYNOTE LECTURE	
Time	Otology/Neurotology			Head & Neck		Rhinology		Laryngology		Pediatrics		Facial Plastics	Skull Base	Phoni- atrics	Sleep Medicine	Swallowing	General	Salivary Gland	Basic ENT						
8:00 - 8:45	Management in otosclerosis	New options in the treatment of Meniere's disease		Endoscopic nasopharyngectomy	Reconstruction in the head and neck	Epistaxis - non surgical and operative management	*The rhinologist has no place in the management of nasal malignancy	How to manage the acute difficult airway	Future prospects for treatment of vocal fold scar	Emergency Airway management	Pediatric tympano-plasty	Facial palsy surgery static and dynamic techniques	Friends and enemies in front of a maxil. Pathology: ppf and itf		Surgical failures and how to deal with them	Rationale in the implementation of a phoniatric-logopedic approach in head and neck patients		The salivary gland mass workup	Young ERS - Essentials of radiology for planning of endoscopic surgery						
8:45 - 9:00	BREAK																								
9:00 - 10:30	*Endoscope versus microscope in tympanoplasty	Intratympanic treatment of Meniere's disease		Education in head and neck surgical oncology	Technological advances and expanding indications of trans-nasal endoscopic surgery	Epistaxis and HHT - the difficult cases	Sinonasal malignancy - histology driven treatment	European consensus on the management of laryngeal dysplasia - are we there?	Challenges in phonosurgery	Pediatric airway problems	Special issues and complications in pediatric CI	Non-surgical facial rejuvenation: state of the art	Paraganglioma: clinical decision making		European ENT-guidelines for OSA	Pharyngeal and UES dysfunction in a context of head & neck cancer - prevention, diagnosis, treatment		Surgical techniques + minor salivary gland tumors	Young ERS - How I do it: nasal airway surgery						
10:30 - 11:00	COFFEE BREAK																								
11:00 - 11:30	Simulation based surgical training	Objective diagnosis of vestibular disease	Inner ear protection and regeneration - potential clinical applications	*Concomitant chemoradiation vs induction chemotherapy	Intraoperative assessment in cancer surgery	Epistaxis - what is the evidence for best management	Pathogenesis of sinonasal inverted papilloma: multistep development and its carcinogenesis	KTP laser - what is the role in treating laryngeal cancer?	How I manage the professional voice	Pediatrics airway surgery	Childhood cholesteatoma - is it different?	Morphing in rhinoplasty	Petrous Bone cholesteatoma		The end of CPAP			Workup done: presumably benign!	UEMS-ORL - How to write an abstract and present at a meeting						
11:30 - 12:15	Prediction of cochlear implant outcomes in challenging indications	Surgery in balance disease		Reconstructive surgery in the head and neck	Modern management of thyroid cancer	Update on para-thyroid surgery	CRS-novel concepts in etiology and management	Benign nasal tumours - how to manage best?	ABEA - Contemporary management of dysphagia from the mouth to the stomach	Pediatric ORL infections	Tonsillectomy or tonsillectomy - pros and cons	Face-lift techniques	Managing complications in skull base surgery	Professional voice care			UEMS- What it implies for you!	Recurrent pleomorphic adenoma - followed by FP Session	Young ERS - Basics in surgical technique and instrumentations for endoscopic skull base reconstruction						
12:15 - 13:00	LUNCH/ SPONSORED SATELLITE SYMPOSIA																								
13:00 - 14:30	LUNCH/ SPONSORED SATELLITE SYMPOSIA																								
14:30 - 15:00	20 years' experience in single side deafness and cochlear implant	Cognitive impacts of vestibular disorders	The vestibular implant	Weakness of p16 in the TNMB classification	TORS in Korea	Olfaction in 2019	The Chameleon - uncinate process	Rhinogenic orbital inflammation	Tracheal transplantation; where are we now?	TBA.	CMV and the pediatric otolaryngologist	Pediatric CI	Dorsum revision in rhinoplasty	Complications of the endoscopic endonasal skull base surgery				Parapharyngeal space tumors	Young ERS - Fungi-induced upper and lower respiratory tract allergic diseases						
15:00 - 15:45	FREE PAPERS																Digital healthcare in ENT and the smart-phone revolution	Primary parotid malignancies - followed by FP Session	Difficult epistaxis – how we do it						
15:45 - 16:30	FREE PAPERS																		"My patients snore" – work up and treatment algorithm for OSAS in the general ENT practice						
16:30 - 17:00	COFFEE BREAK																								
17:00 - 17:45	ABI or CI in cochlear and auditory dysplasia	Necrotising external otitis management		Surgical margins and robotic surgery	Treatment of locally advanced thyroid cancer	CRS - update on pathogenesis and the microbiome	DCR : indication assessment and treatment	Treatment algorithms for recurrent respiratory papillomatosis	Cricotracheal resection for subglottic stenosis in adults	Diagnostic and therapeutic approaches of obstructive sleep apnea disease in childhood	Pediatric CSOM	Oncologic facial plastic and reconstructive surgery techniques	Decision making in acoustic neuroma management	Nasopharynx to cavernous sinus - the final frontier?		Swallowing disorder in tracheostomized patients. Diagnostics and problem solving strategy in Intensive Care Unit		Prevention and treatment of sequelae of parotid surgery	UEMS/EBE-ORL mock exam
